SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The following items are applicable to this modification:DACW6503B0013 0003

A. BID OPENING DATE: The Bid Opening Date is extended to Friday, July 11, 2003 at 2:00 PM in Conference Room 1C; Waterfield Building, U.S. Army Engineer District, Norfolk, 803 Front Street, Norfolk, VA.

B. TECHNICAL CLARIFICATION:

Reference Section 02881 Dredging and Section 01355 Virginia Water Protection Permit– dredging is authorized by hydraulic dredge with placement of material in Craney Island Dredged Material Management Area.

Question: Is the Contractor allowed to perform the above mentioned work with a hopper dredge, i.e. by pumping the material out of the hopper directly into the Craney Island Dredged Material Management Area using a mooring barge?

Government's Response: The work can be performed with a Hopper Dredge with the understanding that the contract requirements are accomplished as specified. The technical specifications state that "the Contractor shall perform the scheduled dredging work with a hydraulic dredge and pipeline and place the dredged material in the Government-furnished placement area as indicated". The DEQ permit states that a hydraulic dredge is authorized to be used for this project. A Hopper Dredge is a type of hydraulic dredge, and the permit and specifications do not exclude Hopper Dredges.
